# Migration Steps (Existing Customer)

## Software upgrade process

### 1. Check system requirements and download the software

- PW9252A - <https://www.keysight.com/find/download-pw9252a>
- PW9253A - <https://www.keysight.com/find/download-pw9253a>

### 2. Steps to install the license file

- To get a license file, go to [keysight.com/find/softwaremanager](https://www.keysight.com/find/softwaremanager) on a computer with internet access.
- If you are a returning user, choose **Login** and then choose **Add New Certificate**. Or, if you are a first-time user, choose **New User** and follow the steps to register. You will need two items from the top of this certificate: **Order Number** and **Certificate Number**
- Choose **Request New Licenses** and follow the steps to obtain a license file. You will need the **Host ID** of the machine to be licensed. To find that information, open **PathWave License Manager (PLM)** app on the machine to license and note the host id on the top of the first screen.
- When you obtain your license file, download and copy the license file into the targeted instrument/computer, use **PLM** to install the license file.
- For more information, visit [www.keysight.com/find/licensing](https://www.keysight.com/find/licensing)
